Revision Skills Evening

Last year Y11 students and their parents enjoyed our very successful Revision Skills Evening in preparation for their forthcoming GCSEs. Students and their families were invited for a curry supper and treats followed by an evening of revision skills and techniques.

Highlights of the night included top tips such as the ‘Revision 4 Step Process’, ‘Left Brain or Right Brain Revision’, ‘Snakes and Ladders for Revision’ and ‘Visualisation for Maximum Performance’. Parents had the opportunity to try out the revision skills first hand and lots of fun and games were enjoyed along the way! We saw some teachers in new and more creative ways... including singing, acting and even a little dancing! Finally, advice was shared for overall wellbeing during the exam period including healthy eating, lifestyle and managing stress.

Feedback from our students and parents was incredibly positive. 90% of parents and carers found the event useful, enjoyable and felt better equipped with the skills to support their child with revision.
