

Gifted and Talented Definitions

Gifted children and young people are capable of excelling in 3 or more academic subjects (such as English, Maths, Languages, History or Science).

Talented children and young people may excel in areas of the curriculum where visio-spatial skills or practical abilities are developed, as well as academic skills (such as PE, Drama, Music or Art and Design).

More able children and young people are capable of excelling in one or two academic subjects (such as English, Maths, Languages, History or Science)
