

Year 10 Mentoring Scheme – Manchester University

The Academy was lucky enough to be given thirteen places on the University of Manchester Mentoring Programme. The Mentoring Scheme for Year 10 students aims to raise awareness of Higher Education and the courses available; introduce pupils to the benefits of studying a degree; highlight the differences between school, college and university and make pupils aware of the social opportunities available to them at university.

The sessions will be delivered by current undergraduate students who have been trained and DBS checked and the session outline is as follows:

Mentoring Session Overview 2016

St Anne's Academy
